

Task 4

In this task, I learned about professional communication and email etiquette. I wrote two emails — one requesting an extension from a professor and another expressing interest in a summer internship. While writing these emails, I focused on maintaining a polite tone, using a clear subject line, and structuring the content properly with a greeting, body, and closing. This helped me understand how important it is to communicate respectfully and clearly in formal situations.

I also created a social media Do's and Don'ts checklist to highlight responsible online behavior. It included points like thinking before posting, maintaining privacy, and avoiding inappropriate content. This made me realize how our online actions can affect our personal and professional image.

A situation where poor digital communication can cause problems is when someone sends an email without proper tone or clarity, which may lead to misunderstanding or a negative impression. Such issues can be avoided by writing clearly, being respectful, and following basic communication rules. Overall, this task improved my understanding of professional digital behavior.
